PROJECTS

Member - Web Development Team | InStock

OCT 2023, BrainStation

- Proficiently handled both back-end and front-end coding, merging complex functionalities seamlessly. Applied a diverse skill set to ensure a cohesive and user-friendly app, balancing technical depth with an engaging interface. Required problem-solving, adaptability, and versatile coding knowledge to harmonize both ends efficiently.

Lead - Web Development Team | Capstone Project

Nov 2023, BrainStation

- Effectively managed both the technical coding behind the scenes and the user-facing design and functionality, seamlessly integrating complex features. Utilized a varied skill set to create a cohesive and easy-to-use application, striking a balance between technical intricacy and an appealing interface. This demanded problem-solving skills, adaptability, and versatile coding expertise to synchronize both aspects efficiently.
